

PSCN090-02P-02S Pancake Slip Ring

CENO separate pancake slip ring is also called platter slip ring because of its outline .Extremely thin is the feature of this series slip ring. a pancake or platter style slip ring can be used in a certain applications where a cylindrical shape slip ring will simply not fit into the available space or a very low profile is needed.

Features

- ◆ More thickness available
- ◆ Power and signal combinations
- ◆ Extremely thin,save space

Applications

- ◆ Excavator
- ◆ Yacht
- ◆ 3D total station

Optional

- ◆ Circuit number
- ◆ Current rating
- ◆ Installation way
- ◆ IP protection grade

PSCN090-02P-02S	Specification	Picture
Current	2*2A,2*2A(CAN bus signal)	
Voltage	0-12 VAC/VDC	
Electrical noise	≤70mΩ(50rpm)	
Dielectric strength	≥500V@50Hz	
Insulation resistance	100MΩ@100VDC	
Operating speed	0-10 rpm	
Contact material	precious metals	
PCB	FR-4	
Inner diameter	90mm	
Rotation way	Pcb board fixed on customers flange
